

APX12 GO BT

AMERICAN AUDIO®

Create the party where ever you are!

The APX12 GO BT battery-powered speaker delivers reliable, portable sound anywhere.

Easy to transport and simple to use, it offers multiple ways to play music—making it ideal for events, presentations, and performances that bring energy wherever you go.

APX12 GO BT is a 12-inch, 2-way battery powered 200W active loudspeaker with LCD display, MP3 playback, Bluetooth® TWS (True Wireless Stereo) and FM tuner. Includes UHF handheld mic and wireless remote to control volume and track selection.

The APX12 GO BT features wheels and a retractable handle making it easy to transport to any indoor or outdoor event. Whether you are doing a presentation, playing music outdoors, or using it to as your background system as you play your favorite instrument or sing your favorite song. Perfect for rentals or production as well as extending the boundaries of any event.

The APX12 GO BT includes a UHF handheld microphone and a wireless remote to control volume and track selection.

Bluetooth® TWS (True Wireless Stereo):

Integrated as standard into all new APX12 GO BT units, can now be used to link two of the speakers using reliable Bluetooth® connectivity. This allows them to work as a stereo pair for events where a larger portable PA is required, with no connecting cable required between the two speakers.

SD Card Port:

Insert a SD card full of MP3 files and control them from the built-in display

USB Port:

Plug in an MP3 player into the built-in USB input and control the music from the built-in display.

Mini Jack Input:

1/8-inch mini jack input to play MP3s from an external MP3 player.

FM Tuner:

Dial into your favorite FM radio station.

PA or DJ Mixer:

The APX12 GO BT also has XLR In/Out to connect to a traditional PA or DJ mixer.
