

# AMERICAN AUDIO

## SDJ-1 UPGRADE INSTRUCTIONS

**Please follow these instructions to upgrade the Advanced Track function on your American Audio SDJ-1:**

1. From your computer, load the file "SDJ-1CA\_1601.BIN" onto a clean SD Card (nothing else should be on the SD Card).
2. Turn ON the SDJ-1.
3. Insert the SD Card into the player 1 SD Card slot.
4. The upgrade will start automatically.
5. When upgrade is finished, "Complete" will be displayed in the LCD screen.
6. When "Complete" is displayed you must unplug the power supply from the wall outlet. With the SDJ-1 unplugged remove your SD Card. You can now plug the SDJ-1 into the wall outlet and your upgrade will be complete.
7. Insert the SD Card back onto your computer. Erase the "SDJ-1CA\_1601.BIN" file so the drive is clean of any files. **\*\*\*Please note this important step or upgrade will not work correctly\*\*\***

### ***Customer Support (USA):***

American Audio® provides a toll free customer support line, to provide set up help and answer any question should you encounter problems during your initial set up or operation.
